MILLERSBURG ITEMS.

Miss Fannie Harris, of Carlisle, aged 49, and Mr. James Feeback, of Colville, aged 65, were united in marriage Tuesday afternoon at 4 o'clock, at the home of Mr. O. W. Ingles, in Millersburg. Mr. Feeback is a prominent business man of Colville and it is his second matrimonial venture. Miss Harris is an attractive and accomplished lady of Carlisle, a personal friend of Mrs. O. W. Ingles, and the family of Mr. J. G. Allen. The ceremony was performed by Rev. J. D. Redd, pastor of the Methodist church of this city and was witnessed by Mr. O. W. Ingles and family, Mr. S. M. Allen and family, Mr. L. R. Rogers and family and Mr. and Mrs. W. V. Shaw. An elaborate wedding lunch was served after the ceremony, after which the newly wedded couple left for their home at Colville.

A pretty marriage was solemnized Wednesday morning at 9:15 o'clock at the home of Mrs. Malinda Benton, on Main street, when her daughter, Miss Billie Benton, became the bride of Mr. Shirley L. Tate, of Morris-town. The wedding was a very quiet affair owing to the illness of the bride, only the members of the immediate families and a few intimate friends were present. The ceremony was performed by Rev. J. D. Redd, of the Methodist church. The bride is the only daughter of Mrs. Benton and

is very beautiful, attractive and popular. Mr. Tate is a young man of fine business qualities and at present is engaged in the drug business. Mr. and Mrs. Tate will be at home after March 1 at Morristown, Tenn.

Mr. J. G. Smedley continues to improve. Mr. M. P. Wells is confined to his home with a cold.

There is no change for the better in the condition of Mr. Broad Smedley.

Miss Eldiva Saunders, of Flemingsburg, is the guest of Mrs. R. M. Johnson.

Miss Maggie Wallingford, of Germantown, arrived today as the guest of Mrs. W. A. Butler.

Miss Edith Collier, of Cynthiana, was the guest of Mrs. M. P. Collier Monday and Tuesday.

Mr. J. D. Blunt, of Larned, Kan., was the guest of Mr. and Mrs. J. H. Stewart from Monday to Wednesday.

Mr. J. G. Allen was the guest of his daughter, Mrs. J. M. Alverson, at Lawrenceburg from Saturday to Tuesday.

Mr. J. E. Caldwell purchased Tuesday the home of Mr. R. L. Wilson, Sr., for \$3,500. Possession will be given March 1.

Mrs. Frank Armstrong and brother, Mr. I. F. Chanslor, of Maysville, Mrs. T. R. Wilson, of Robinson, and Mrs.

Millersburg Wants Tobacco Warehouse.

With some of the most prominent and influential men behind the movement there is every indication that Millersburg will next fall have a loose leaf tobacco warehouse and plans are already shaping in that direction.

The initial step was taken last week when five subscription papers were started and after one day's work in soliciting subscriptions more than \$10,000 was raised.

The promoters of the enterprise have in mind a most desirable site for the location of the warehouse, which is located in one of the colored suburbs of the town. It had been purchased for the purpose of erecting a church and it is the hope that if the plan goes through they may be able to secure this property for the purpose.

The plot is said to be easily accessible to the railroad which would furnish the proper facilities for the shipping of the tobacco after pricing. The men behind the movement are thoroughly confident that they will be able to secure the necessary capital within the next few weeks when steps will be taken looking to the purchase of a site, and work upon the structure will begin shortly thereafter.

Among the public spirited men of Millersburg who are interested in the plan is Mr. W. F. Saunders, who has subscribed liberally and who is one of the chief promoters. The movement is but a sample of the progressiveness displayed by the people of Millersburg recently and it is to be hoped it will materialize.

Berry Bedford, of Lexington, attended the Chanslor land sale on Tuesday, of which they are heirs.

Mrs. C. W. Judy, of Lexington, arrived Monday as the guest of her brothers, Messrs. E. M. and O. W. Ingles.

We have a large stock of clover seed. Now is the time to buy. MILLERSBURG COAL & LUMBER CO.

Arnold Held Without Bail.

The examining trial of Newt Arnold, charged with killing Attorney Harry Bailey, at Cynthiana, on the afternoon of Monday, January 27, was held in that city Wednesday, resulting in the defendant being held to await the action of the Harrison county grand jury by County Judge King without bail.

Arnold, who formerly lived in Bourbon county, has since the day of the killing been confined in the Lexington jail, being taken to that city for fear of attempted violence because of the intense feeling that existed because of the killing of Bailey.

The defendant was represented by Attorney E. P. Morrow, of Covington. A number of witnesses were introduced both for the defense and prosecution. After the trial and by order of Judge King Arnold was taken back to Lexington where he will be held in jail until the date of his trial in the Harrison court.

Exhibit Car.

The Northern Pacific railroad exhibit car will be at the Louisville and Nashville depot on Tuesday, February 18, to show the immense natural agricultural and mineral wealth of the great Northwest. It will have on exhibition products collected from the irrigated and non-irrigated soils of the great Northern states. It will show what can be done with the free Government land that is open to homesteaders. The pupils of the public and private schools are invited to visit this car and are urged to come before noon as the afternoon will be devoted to farmers. Mr. Jesse Johnson, exhibit agent, was in the city yesterday in the interest of this exhibit.

Good Morning, Have You a Cook

The matter of securing a cook in Paris is becoming quite a problem and many housewives are tearing their hair in desperation. But, nevertheless, cooks cannot be had, even at the most satisfying salaries. As a matter of fact conditions have never been such as they are now and there is only one reason to assign for it.

Almost any day in the week it can be found that cooks are wanted in homes, and almost any day the complaint is heard that "my cook has left." The fortunate persons who possess the employment of one skilled in the culinary art frequently wake in the morning to find the cook hasn't shown up, and the housewife must either exercise her own cooking knowledge or do without breakfast.

It has come to light that the reason for this is that a large number of colored women employed around the homes in this city spend their nights in drunken revelry instead of attending to their duties. A good "house" invariably brings on that independent feeling and the result is when the time comes to go to work, the employee assumes a "don't care" attitude and quits the job.

This is a matter which we wish to bring to the attention of the police. A little diligence along the line of breaking up such places as are frequented by negro women who spend most of their time "in their cups." Vagrancy will increase as long as a few stiff fines would have the effect of supplying the housewives of Paris with cooks who would hereafter respect their positions.

Comparative Digestibility of Food**Made with different Baking Powders****From a Series of Elaborate Chemical Tests:**

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with
phosphate powder:

68 1/4 Per Cent. Digested

Bread made with
alum powder:

67 1/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

Baby Born in Prison

The Frankfort reformatory holds one prisoner innocent of any offense and for whom no commitment was ever issued. The prisoner is the girl baby of Ada Moss, colored, born Tuesday afternoon at three o'clock within the prison walls. The mother, has been there just a week, having been sent up from Union county for concealing the birth of another child. This is the first child born in the prison for years, and officials are curious to know its status as a free citizen in the institution. Mother and child are both doing well.

GENERAL NEWS.

Through an agreement effected by mediators two thousand telegraphers of the Southern railway will receive aggregate additional wages of \$100,000 annually.

In a letter to the "Dear Children of the United States of America" two young princesses of Bulgaria plead the cause of little folk orphaned by the war in the Balkans.

Upon the failure of engineers and railroad managers to agree upon a method of arbitrating differences, Government officials were asked to avert by mediation the threatened strike of 34,000 firemen.

A Mammoth Concern.

Notwithstanding the \$50,000 fire which destroyed the brass and aluminum foundry of the Buick Motor Company at Flint, Michigan, they are still making deliveries by the train load.

Right on top of the eleven trains sent out in 1912 they are starting out on 1913 business with two trainloads in the first three weeks of January. The first was one of fifty car loads which went to the Nebraska Buick Company at Lincoln, Neb. This is said to be the first train load shipment of motor cars ever made into that territory.

The second is one of eighty carloads which will be sent out the coming week to the Pence Automobile Company at Minneapolis. The train will carry 250 Buicks, and is the second to go to the Pence people within a period of only five weeks.

A big concern like the Buick has no end of trouble in getting enough freight cars. Sometimes they can't, and if they can't they make the delivery cross country, no matter what the weather and no matter what the roads. Deliveries thus far this season have been made to points as far away as Pittsburg, Cleveland and Indianapolis, not to mention Detroit, Battle Creek and other places near at home where that kind of delivery is so common as to excite no comment.

But the real trouble in sending out a trainload shipment comes in loading and getting away without seriously congesting conditions in the yards. It is a job which calls for ingenuity and resourcefulness. Buick loaders have been made expert by much practice until now it takes only a minute and a half to get a machine in the box car, cleaned, covered and ready for shipment.

The company has just issued an especially attractive pocket folder in which they give some very attractive facts and figures of the \$1,500,000 worth of motor cars sent out by trainload during 1912.
